Investment objective

The portfolio will be biased to investments in the United States, but could also hold investments outside this country. The portfolio aims to provide a balance between capital preservation and capital growth in US dollars with a reduced level of volatility, via strategic exposures to a wide range of asset classes.

Please refer to the Prospectus for full details of the fund, its charges, the investment objective and investment policy.

■ Manager commentary

We decided to leave asset allocation and manager selection unchanged in January. Previously we used the sharp falls in markets towards the end of 2018 as an opportunity to add to equity holdings in the Portfolio, which has been rewarded through January and early February as markets rallied significantly.
