■ Manager commentary

We decided to close the c.1.5% position in the F&C Global Equity Market Neutral Fund after we were notified that the lead manager of the strategy would be leaving the firm later this year. While we retain confidence in the rest of the team's quality and capabilities, we felt the change casts significant doubt over the strategy's future and exposes investors to unnecessary additional risks. We chose not to redeploy the proceeds immediately hence the Portfolio now has a lower allocation to liquid alternative strategies across four remaining holdings.
